

**Your choice to enable  
wireless service  
provider growth.**

**T-Mobile Wholesale has the 5G network and platform that allows you to reach your full potential of offering wireless services to your customers.**

#### **The Network**

- T-Mobile is America's largest 5G network covering more people, places, and things. With faster speeds, more capacity and coverage, and reduced latency, we can help you and your customers stay connected.

#### **Product and Platform**

- At the foundation of T-Mobile Wholesale are our world class products and platforms that offer comprehensive solutions to simplify the management of your business.

#### **Leading Virtual Wireless Operator Provider**

- T-Mobile Wholesale is the MVNO market leader with the largest number of MVNOs and 59% market share of MVNO subscribers. We are creating additional use cases to enable B2B and Fixed Wireless that will further stamp our authority on the wholesale business.

#### **Team of Subject Matter Experts**

- T-Mobile Wholesale is dedicated to your success with a team of experts and resources to develop, grow and support your ongoing success. We bring a diverse ecosystem of vendors to help complement and support your business needs.

**See what we can do for you.**
